

FLOOR SYSTEM

For Broilers • Broiler Breeder Pullets / Broiler Parent Pullets • Commercial Layer Pullets

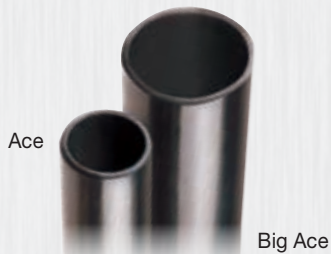

Superior performance, exceptional durability and easy management

PROVEN BENEFITS:

Improves bird performance / Improves feed efficiency & weight gain / Dry friable litter / Reduces mortality and undergrades / Reduces labor costs / Designed for effective flushing / Delivers hygienic water / Longer system life

1

Install an advanced Ziggity Floor System and benefit from its proven bird, litter and system performance.

Made of durable plastic materials, our standard Ace and larger diameter Big Ace waterlines are cost-effective and long-lasting.

Pipe interiors have virtually no obstruction for effective flushing and the smooth inner wall inhibits biofilm formation for easier cleaning and healthier birds.

2

Ziggity pipes attach conveniently with a choice of brackets to a galvanized support pipe for increased stability and reduced line sway. The height of the winched drinker line adjusts easily as birds grow, and pipes winch to the ceiling during clean out.

Max 3 Drinker Benefits

- Concave trigger pin for easy bird activation.
- Corrosion-resistant stainless steel components for long life.
- Hardened stainless steel insert helps prevent drinker wear.

3

The Floor System utilizes Ziggity's exclusive Max3 drinkers. With its advanced technology drinker components, birds get all the water they need without spillage at every stage of growth. Saddle intrusion into the pipe is slight, ensuring good water flow during normal and flush operations.

4

Ziggity regulators and end assemblies are designed to work with Ziggity Floor Systems for easy and effective flushing.

Max3 drinkers feature a TL (Twin Lock) design to provide extra secure attachment to the pipe.

10-YEAR
Prorated Drinker Warranty
Illustrates our commitment to the quality of Ziggity drinkers.

MAX³
DRINKERS

Advanced Drinker Technology

These advanced drinkers are designed to maximize results through improved litter, bird and system performance. Made of higher-grade materials, Max3 drinkers are more resistant to wear and chemical attack for long-term performance.

A watering system that delivers the right amount of water at all times.

Regulator

Delivers high water volume at the low pressure required for no-spill drinking. Built-in flush valve makes for easy removal of sediment, biofilm and air.

Solenoid Regulator

For automatic and unattended system flushing – requires connection to a controller or timer with a 24 VAC output.

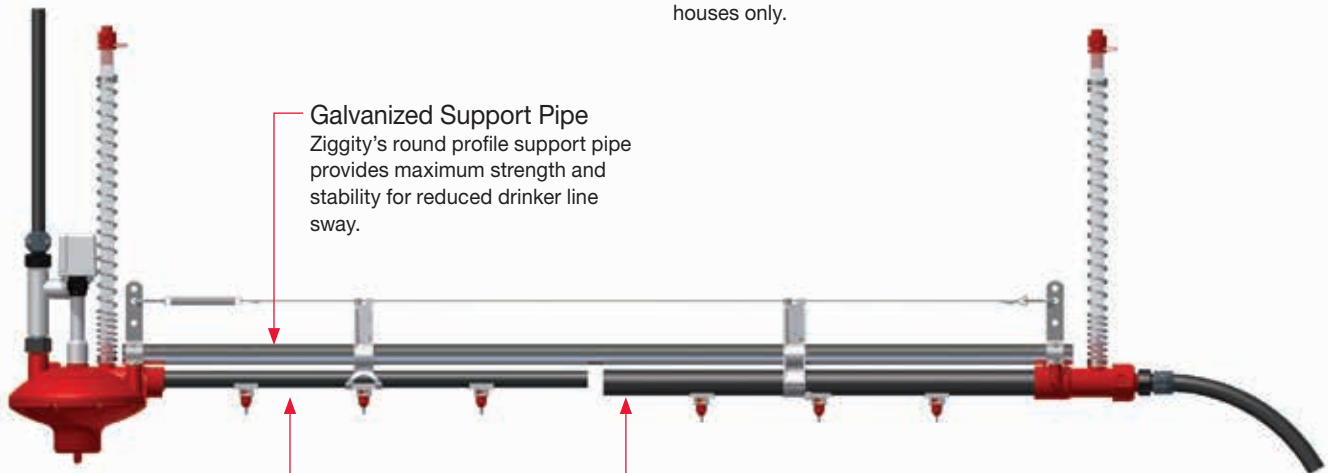

Slope Neutralizer

Reduces slope pressure by a preset amount, requires no adjustment and maintains system pressure setting even when birds are not drinking. Required in sloped houses only.

End Assembly

Opens automatically during the flush mode for easy and effective flushing.

Galvanized Support Pipe
Ziggity's round profile support pipe provides maximum strength and stability for reduced drinker line sway.

Ace Pipe.
Made of durable plastic material, this pipe is cost-effective and highly UV- and chemical-resistant. Pipe interior has virtually no obstruction for effective flushing.

Big Ace Pipe.
Industry's largest water bearing pipe.
