

BIG Z – DUCKS & GEESE

For Ducks • Breeder Ducks • Geese • Breeder Geese

Tough enough to effectively water large birds.

PROVEN BENEFITS:

Hygienic water delivery / Durable and wear-resistant / Keeps litter, slats and pits dry / Efficient and effective flushing / Eliminates routine cleaning / Improves feed efficiency / Lowers mortality / Lowers condemnation rate / Improves weight gain

1

Larger birds have bigger beaks and when drinking from conventionally sized drinkers this difference in size can lead to water spillage. Ziggity's Big Z is significantly larger and promotes more effective drinking with far less spillage.

2

Far bigger than standard-sized drinkers, Big Z delivers all of the hygienic water large birds need. Minimizing water spillage leads to better overall performance, including improved feed efficiency and weight, while lowering condemnation rates and improving livability.

3

Because Big Z is larger and more durable than standard drinkers, it's also far more resistant to wear, thereby reducing replacement and labor costs.

4

Our 10-year prorated warranty is all the assurance you need. It is another example of how Ziggity improves results through innovation.

Big Z Drinker Benefits

- Corrosion-resistant stainless steel components for long life.
- Twin-lock design keeps drinkers secure in the pipe saddle.
- Hardened stainless steel insert helps prevent drinker wear.

Big Z Drinker

Standard Drinker

At three times the weight of the standard drinker, Big Z is the most durable drinker available to meet the demanding needs of large birds.

BIGZ™

Advanced Drinker Technology

Large size affords large birds such as ducks and geese more effective and easier drinking. Big Z comes in various models, each one designed for a specific bird application.

Ziggity Systems.

The same concept that made Ziggity the leader in broiler watering, only bigger and tougher for large birds.

Flush Regulator

Delivers high water volume at the low pressure required for no-spill drinking. Built-in flush valve makes for easy removal of sediment, biofilm and air.

Auto Flush Regulator

For automatic and unattended system flushing – requires connection to a controller or timer with a 24 VAC output.

Flush End

Opens automatically during the flush mode for easy and effective flushing.

Galvanized Support Pipe

Ziggity's round profile support pipe provides maximum strength and stability for reduced drinker line sway.

Large Diameter 33.40 mm PVC Pipe

Industry's largest water bearing pipe has virtually no internal obstructions for effective flushing.

Ziggity Support:

As the only manufacturer 100 percent focused on poultry watering, Ziggity provides a number of available resources to optimize bird and system performance.
